Dallas, Texas: 7/31/14- **BUILDING SOLUTIONS NAMES DENNIS PALMER VICE PRESIDENT**

Building Solutions announces the promotion of Dennis Palmer, LEED AP, O+M to Vice President.

Dennis will now be responsible for development and delivery of Facilities Operations Support services, nationwide. Notable among these services is the firm's High Performance Campus program, which entails year-round collaboration with its independent K-12 school client facilities operations. As a technical advisor to those managing the school's fixed assets, Building Solutions helps elevate the level of performance and value of campus facilities to the client institutions.

Other Facilities Operations Support services involve LEED certification programs, energy conservation, and implementation of maintenance management technology solutions.

Dennis majored in Architecture at the University of Texas and holds a Bachelors Degree in Design and Construction Management from ITT Technical Institute. He also is a U.S. Green Building Council, LEED Accredited Professional, LEED AP, O+M and a Phase 2 Commercial "Green Building Program Provider" for the City of Dallas.

Building Solutions is a technical advisor to real estate owners, operators, and investors, providing facility condition assessments and condition audits, project management of building development and re-development, and consulting to building operators on maintenance programs, sustainability improvements, and major capital replacements. The company serves real estate investors and developers, as well as institutional clients, such as private schools and municipalities.
