

## YOUR FACILITIES EXPERTS

When it comes to independent school campus operations, no one has more knowledge or experience than Building Solutions as a technical advisor to facility managers, business officers, and governing bodies.

We are leaders in the application of sustainability principles to the education market. As an independent Project Leader, we are dedicated entirely to serving the school's interests on the project. Building Solutions knows independent schools, your culture, financial priorities, quality demands, and decision-making patterns.

## OVERLAND

### PUTTING STUDENTS FIRST

We live in a time when all education organizations are getting back to what matters most - student learning - and reinventing themselves to do it differently. Our goals have always been more than just designing buildings.

We exist to unlock the embedded human potential for a more resilient future and a better world that promotes human flourishing. For over 30 years, we have helped clients across diverse market sectors solve their most challenging problems and realize their most aspirational visions. Education is critical to a successful future for children, adults and our communities. Overland is pioneering new thinking to reshape the 21st. century education experience.

All Saints Episcopal School Student Union - Fort Worth, Texas

## KEYSTONE SCHOOL MASTER PLAN CASE STUDY

San Antonio, Texas

### AN INNOVATIVE APPROACH

Keystone School offers a nationally recognized holistic academic program that focuses not only on a student's academic success, but on creating an educational experience that incorporates ethical growth, community involvement, and responsible leadership. The success of their program is defined by the success of Keystone alumni across some of the finest and colleges and universities in the world.

### STAKEHOLDER IMMERSION

Through a collaborative, immersive stakeholder process, Overland held 10 separate meetings with students, teachers, alumni, and parents in order to define a future for Keystone School. Our team learned that Keystone School is more than an educational experience—it is a

collaborative, diverse, and inclusive community that maximizes student opportunities, strengthens creativity and individuality, and expands learning beyond classroom walls. Together, we took a deep dive into the engagement process to understand the range of different stakeholder experiences, from being a young student to an alumni, an educator to a parent, and internalized Keystone's past and how it translates to a meaningful present and transformational future. Limited by a tight, urban location with few expansion opportunities, poor infrastructure, and dated buildings, Keystone School needed a way forward. In order to continue providing their students with exceptional educational experience, they needed modern, flexible spaces that could evolve and adapt to changes in technology and student needs. In doing so, it was important to not sacrifice the school's historic cultural identity.
